Sarafa Vidya Niketan Girls H.S School

📅 2016 - 2017    📍 Indore

%  
**79.3** / 100

## PROJECTS

### Real Time Food Ordering Management System - java(JSP)

🔗 <https://github.com/snehashrivastava048/Restaurant-real-time-order-management.git>

- A web based application in which people can reserve table by scanning the QR code and after that menu is displayed on their smartphones.
- Developed the application using **MySQL** as database and **HTML, CSS** for frontend, **JSP** for backend.

### Event Registration App - Salesforce

🔗 <https://trailblazer.me/id/sshrivastava93>

- In the Event Registration App there are many things you need to track like your event name and the sessions you have scheduled.
- In this project we implimented concept of Salesforce admin i.e **object**, **import data** and applied **validation rule** and many more.
